

# BB 900

## BIO-ENZYMATIC CLEANER

### GENERAL DESCRIPTION:

**BB 900** is a revolutionary cleaner, formulated with bacteria, biodegradable detergents and a light fresh fragrance.

**BB 900** is scientifically designed for multi-purpose cleaning and deodorizing on contact.

**BB 900** will clean up grease and grime from kitchen floors, spills, and stains on carpets and clean and deodorize all bathroom surfaces. **BB 900** will also clean and keep odor free, areas such as receiving docks, parking lots, trash areas, trash bins and any other area where there is an accumulation of grease, food waste, trash, etc.

**BB 900** is a special formulation of bacteria that will create optimum enzymatic activity for the production of protease, lipase, amylase and cellulase enzymes. These hard working enzymes will break down starches, carbohydrates, tissue, fats, grease and oils so the bacteria can then digest them, leaving the surface clean and odor free.

**BB 900** is used in many industries such as hospitality and lodging, government and municipalities, food service and food processing, park and recreation systems, schools, supermarkets and sanitation hauling.

### BENEFITS:

- USDA APPROVED
- ENVIRONMENTALLY SAFE
- FREE RINSING AND QUICK DRYING- IN MOST CASES NO RINSING IS REQUIRED AT ALL.
- REMOVES GREASE, OFFENSIVE ODORS, HARD WATER STAINS AND NORMAL SURFACE DIRT
- NON PATHOGENIC
- USER FRIENDLY
- CONCENTRATED- DILUTES UP TO 5:1
- CAN BE APPLIED WITH PRESSURE SPRAYERS

### USES FOR BB 900 \*

**BATHROOM**  
TOILETS  
URINALS  
COUNTER TOPS  
SINKS  
BATH TUBS  
SHOWER WALLS  
FLOORS  
TILE  
GROUT  
FIXTURES  
DRAIN LINES

**RESTAURANTS**  
FLOORS  
WALLS  
TILE  
GROUT  
CARPET  
DRAIN LINES

**OTHER**  
CONCRETE DOCKS  
DELIVERY AREAS  
PARKING LOTS  
TRASH BINS  
COMPACTORS  
SANITATION  
TRUCKS

- \* BB 900 SHOULD NOT BE USED ON FOOD PREP AREAS.
- \* BB 900 IS NOT A DISINFECTANT.
